The Faculty of Science is proud to offer the Science International Scholarships program. The program is two-tiered with applicants eligible to be considered either for scholarships valued at a total of AU $12,000 or AU $5,000 with one application. Scholarships will be awarded on the basis of academic performance and the applicant’s personal statement. The scholarships are available for students applying for entry into any of the science coursework programs at postgraduate level — see list at right for eligible programs.

**Science International Postgraduate Excellence Scholarships**
Total value AU $12,000 (paid AU $6,000 in first semester of study and AU $6,000 in second semester of study).

**Science International Postgraduate Merit Scholarships**
Total value AU $5,000 (paid AU $3,000 in first semester of study and AU $2,000 in second semester of study).

**Conditions**
The scholarships are available for international students who have completed undergraduate studies and are eligible for postgraduate coursework studies at UQ.
Applicants must be classified as an international student in Australia.

Australian citizens and Australian permanent residents are invited to apply for UQ’s available domestic scholarships at: [www.uq.edu.au/study/scholarships](http://www.uq.edu.au/study/scholarships)

Scholarship applications must be received by:
- 30 April to commence in Semester 2, 2014 (July)

"UQ is known for its diverse programs and great facilities. I am doing my postgraduate degree at UQ to learn about the latest trends, theories and techniques in my field, Veterinary Studies."

— Jeeyoung Oh (Republic of Korea)  
Master of Veterinary Studies  
Recipient of a 2013 UQ Science International Postgraduate Scholarship

**Application**
