The Faculty of Science is proud to offer the Science International Scholarships program. The program is two-tiered with applicants eligible to be considered either for scholarships valued at a total of AU $12,000 or AU $5,000 with one application. Scholarships will be awarded on the basis of academic performance and the applicant’s personal statement. The scholarships are available for international students who have completed secondary studies and are eligible for undergraduate studies at UQ. Applicants must be classified as an international student in Australia. Australian citizens and Australian permanent residents are invited to apply for UQ’s available domestic scholarships at: www.uq.edu.au/study/scholarships

Science International Undergraduate Excellence Scholarships
Total value AU $12,000 (paid AU $6,000 in first semester of study and AU $6,000 in second semester of study).

Science International Undergraduate Merit Scholarships
Total value AU $5,000 (paid AU $3,000 in first semester of study and AU $2,000 in second semester of study).

Conditions
The scholarships are available for international students who have completed secondary studies and are eligible for undergraduate studies at UQ.
